EDUCATION

B.Eng. Mechanical
Fed. University Oye-Ekiti
2023 · CGPA 3.22
Second Class Lower

AUTOMATION & TECH

- › PLC Programming
- › Ladder Logic
- › Structured Text
- › UiPath RPA
- › AutoCAD / Inventor
- › Python · JavaScript

PRODUCTIVITY

- › Microsoft Office
- › Google Workspace
- › Generative AI Tools

PERSONAL

DOB: 21 May 1999
Gender: Male
Origin: Delta State
NYSC: Completed ✓

INTERESTS

Industrial Automation
Edu-Tech · Storytelling
Product Design

PROFILE

Mechanical Engineering graduate with plant-floor experience at Dangote Cement and a deliberate focus on industrial automation. Currently developing PLC programming skills (ladder logic & structured text) alongside existing RPA expertise in UiPath. Committed to bringing technical rigour and a process-improvement mindset to a high-throughput packaging environment.

WORK EXPERIENCE

NYSC Trainee — Plant & Mechanical Engineering Dangote Cement PLC, Ibese Plant · Sept 2023 – June 2024

- ▶ Supported field operations across the full cement production cycle — raw material extraction through to automated final packaging.
- ▶ **Ignited focus on industrial automation:** Interacted with PLC-driven control systems on the production line,
- ▶ Assisted with equipment measurements, part alignments and inspections across multiple production areas.
- ▶ Reinforced safety culture: PPE compliance, heavy machinery protocols, and hazard awareness.

Industrial Trainee Techoquip · 2019

- ▶ Led material procurement and full assembly for modification of a plastic bottle crusher.
- ▶ Hands-on fabrication: welding, grinding, and component fitting to engineering tolerances.
- ▶ Deepened understanding of machine dynamics, workshop practices, and mechanical systems.

Basic Technology Teacher / IT Personnel New Edition International Schools · 2021 – 2023

- ▶ Managed time-critical documentation — timetables, rosters, exam materials — under tight school-cycle deadlines.
- ▶ Cut document preparation time by deploying generative AI for template creation and formatting workflows.

PROJECT MANAGEMENT SKILLS

Familiar with scheduling, budgeting and resource allocation principles. Strong technical report writing and cross-functional communication.
